GNW POWER

Innovative Energy Solutions
for a Greener Tomorrow.

Our Vision

Our vision is to “Green a New World”. We provide the safest designed Home and Portable energy storage system for community, family, and individuals to support their green lifestyle and save the earth.

Transforming the landscape of energy generation, usage, and storage. In an era where energy costs are skyrocketing and governments globally are embracing renewables as the definitive answer, we are your trusted partner in this transformative odyssey.

What sets us apart

At GNW Power, we are committed to providing high-quality cost-effective energy solutions to our clients to support them through the ongoing support and monitoring to ensure system performance.

We keep costs low without compromising on the product or service our clients receive so we can pass on the savings to our clients.

What we deliver

At GNW Power, we pride ourselves on forming strong, lasting relationships with our clients. We also acknowledge that a one-size-fits-all approach is inadequate. Hence, we invest time in understanding our

clients’ unique requirements, crafting personalised solutions tailored to their needs. Whether you seek a comprehensive solar energy package or a bespoke package incorporating specific elements, we are committed to delivering results aligned with your objectives and budget.

Our place in the community

At GNW Power we think we can have quite an impact on local communities and as a result we commit that each financial year 5% or more of all profits will be put back into local community organisations. Talk to us about your favourite community organisation and how we might be able to help them!

Our Core Solutions

Portable Power Stations - KAPA Energy

Our Portable Power Stations offer convenient and sustainable energy on-the-go. Ideal for outdoor activities, emergencies, and remote locations, these stations provide reliable power whenever and wherever needed.

- ✓ Compact Design for Mobility
- ✓ Fast Charging Capability
- ✓ Versatile Power Outputs

Household Energy Storage

Our Household Energy Storage Systems enable homeowners to store excess energy generated from renewables, reducing reliance on the grid. These systems optimize energy usage and promote sustainable living.

- ✓ Grid Integration Technology
- ✓ Smart Energy Management
- ✓ Backup Power Support

Commercial & Industrial Energy Solutions

Our High Voltage Battery Systems cater to commercial and industrial entities seeking efficient energy solutions. These systems enhance operational reliability, reduce costs, and contribute to a greener environment.

- ✓ Scalable Energy Capacity
- ✓ Advanced System Monitoring
- ✓ Customized Installation Options

Our Process

Our Energy Efficiency Consultation service assesses energy consumption patterns and recommends tailored solutions for optimizing energy usage. By enhancing efficiency, businesses and households can reduce costs and carbon footprint.

Testimonials What Our Clients Say!

Greengaroo's solutions transformed our energy efficiency, resulting in significant cost savings and a cleaner environmental footprint.

Max Reynolds

Working with Greengaroo was a game-changer for our company. Their expertise in energy solutions is unmatched!
